edaWorkshop16 - Call for Papers available!

[1]

Hannover - The Call for Papers of [edaWorkshop16](#) [2] (May 11-12, 2016 in Hannover) has been announced these days. Industry und Academia are invited to submit their contributions **until January 27, 2016**. Besides scientific contributions also application or economically oriented papers as well as reports on experiences or dissemination in the industrial environment are welcome. (Please note: This year, the conference language will be German.) [Further information](#) [2].

This year the edaWorkshop will be organized by edacentrum together with the GI/GMM/ITG RSS Steering Group for "Computer-Aided Circuit and System Design" and is supported by the BMBF.

Submit your ideas and results in form of a contribution for the edaWorkshop until January 27, 2016! Further information on the call is to be found [here](#). [3]
